

Water Safety Training with Scott Noyes
Thursday June 11, 2015
6:30pm-9:00pm Mast Way Elementary School Lee NH
\$15 per person – good for three years

This exciting 2½ hour workshop presents information that could change the way teachers, childcare providers, parents, and other supervising adults look at water activities and young children.

Attending this workshop fulfills the New Hampshire Child Care Program Licensing Rule He-C 4002.29(q)(3) training requirement. This course meets the requirement for a basic water safety course. Completing this training allows NH childcare staff to have children participate in water related activities and will help prevent drowning.

This program includes,

- 2½ hours of training designed to be thought provoking and challenging.
- A resource booklet which includes water activities, licensing rules, a book list for summer activities, and more.
- A certificate of attendance
- Refreshments

Please Note

- All participants must pre-register.
- The training is open to adults, 18 years and older. Due to the subject matter, this program is not suitable for children. Participants with children present will not be able to attend.
- Certificates can only be awarded for attending the entire program. Late arrivals / early departures will not be eligible for certificates.
- The program costs only \$15 per person and is good for **THREE** years.
- This is a dry-land training. Swimsuits are not necessary.
- Participants are asked to arrive 15-minutes before the program begins to sign-in. This allows the program to start and finish on time.

The Presenter

Scott Noyes has been providing workshops for child care providers, teachers, and parents since 1986.

His background includes a B.S. degree from University of Vermont in Child Development as well as graduate classes from Wheelock College. Scott performs over 150 workshops, classes and trainings each year.

In Early Childhood Development he has worked as:

- a Vermont state-sponsored Child Sexual Assault Prevention Trainer
- a regulatory compliance consultant
- a head teacher in a parent cooperative
- a primary care provider for neglected and abused children
- a director for a nonprofit child care center
- a Child Care Training Specialist working on several Work/Family Direction grants
- a teacher of undergraduate and graduate college courses in Positive Discipline and Challenging Behaviors

His aquatic background has included:

- water safety instructor certification
- swim team coach
- director of sailing
- director of aquatics
- swimming instructor
- lifeguard

Scott is credentialed in New Hampshire as Trainer, Mentor, Faculty, Level 2.
